Gulfport City Councilmember Fridovich Endorses Flowers

Flowers snagged another big endorsement in her efforts to replace Commissioner Welch for the District 7 seat.

Councilmember Michael Fridovich prides himself on establishing relationships.

“The city of St. Petersburg and Gulfport has a border that stretches the length of 49th Street. Over the years, I have observed the way in which Rene has worked to maintain an affirming relationship between the two cities when addressing affordable housing, transportation, roadway improvements down the 49th Street corridor, and programs for our youth.”

stated Councilmember Fridovich.

Flowers served previously on city council in St. Petersburg for eight years as well as President of the Florida League of Cities where she met and worked with Councilmember Fridovich. ***“Rene supports our business corridor and can be seen frequently at events and eating at restaurants in Gulfport”,*** said Fridovich. ***“Rene is someone we know, not someone we have to get to know. Endorsing Rene Flowers as the next District 7 Pinellas County Commissioner is not only an easy choice, it is the right choice”.***

“Relationship building is important. It is the cornerstone of the difference between successful outcomes that add value to our communities verses short term victories;”, said Flowers. ***“It is my pleasure to support Gulfport's business community, neighborhoods, and all of its wonderful progress”.***
